Tugas Praktikum

Prak. Pemrograman Berbasis Web-B

Dosen: ADI WAHYU PRIBADI,S.Si.,M.Kom

Praktikum PHP dan Database MySQL

Muhammad Irfan 4521210086 Universitas Pancasila

I. Tujuan Praktikum

- 1. Membuat sistem pendaftaran pengguna dengan PHP 8 dan MySQL Server.
- 2. Membuat halaman login dan dashboard untuk admin dan pengguna.
- 3. Menerapkan tampilan yang rapih menggunakan HTML dan CSS.

II. Alat dan Bahan

Laragon, Teks Editor, PhpMyAdmin

III. Langkah-Langkah Praktikum

1. Install phpmyadmin di laragon

2. Kemudian klik database pada laragon

3. Kemudian isi username dengan "root" dan passwordnya di kosongkan, setelah itu nanti akan muncul tampilan seperti di bawah

4. Buat database SIAK (CREATE DATABASE SIAK;)

5. Jika berhasil maka akan muncul seperti dibawah

6. Selanjutnya buat table user USE SIAK;
CREATE TABLE user (
id INT AUTO_INCREMENT PRIMARY KEY,
username VARCHAR(50) NOT NULL,
email VARCHAR(100) UNIQUE NOT NULL,
password VARCHAR(255) NOT NULL
).

7. Jika berhasil maka akan muncul seperti dibawah

8. Kemudian buat tabel mahasiswa CREATE TABLE mahasiswa (id INT AUTO_INCREMENT PRIMARY KEY,

id_user INT,
nama VARCHAR(100),
alamat TEXT,
fakultas VARCHAR(50),
tahun_masuk INT,
FOREIGN KEY (id_user) REFERENCES user(id)

Comparison of Control of Cont

9. Jika berhasil maka akan muncul seperti dibawah

10. Lalu jangan lupa membuat superadmin/admin di table user INSERT INTO user (username, email, password) VALUES ('admin', 'admin@siak.com', MD5('passwordadmin'));

11. Jika berhasil maka akan muncul seperti dibawah

12. Selanjutnya masuk ke halaman login chrome http://localhost/siak/

13. Klik halaman register.php terlebih dahulu untuk membuat akunnya dengan format ('irpan', 'lokixmultiverse@gmail.com', MD5('loki123')

14. Setelah itu klik login disini, dan masukkan email dan password yang tadi sudah dibuat

15. Jika berhasil maka akan muncul tampilan seperti dibawah

16. Setelah itu membuat profil dihalaman create profile, dan isi profil sesuai data diri anda

17. Jika berhasil maka akan muncul tampilan seperti dibawah

18. Kembali ke halaman awal, dan klik admin_dashboard.php. Masuk login

19. Jika berhasil maka akan muncul tampilan seperti dibawah

20. Selanjutkan kita akan menambahkan 1 user, dengan cara klik tambah user. Lalu isi data sesuai yang kita inginkan

21. Jika berhasil menambahkan user, maka akan muncul tampilan seperti dibawah

22. Terakhir kita akan coba menghapus 1 user, dengan cara mengklik edit delete

IV. Hasil dan Pembahasan

Untuk sejauh ini saat saya akan membuat File Database:

1. database.php

File awal:

- 1. register.php
- 2. login.php
- 3. logout.php

File terkait Admin

- 1. admin_dashboard.php
- 2. add_user.php
- 3. edit_user.php
- 4. delete_user.php

File terkait User

- 1. user_dashboard.php
- 2. create_profile.php tidak ada terkendala. Hanya saja tadi di bagian database.php line 4 pass = 'rahasia' seharusnya pass = null; dan harus di tambahkan ?> sebagai penutup pada line 15
